

Spirit Seeker

Dec 2006 :: Vol. 10 :: No. 12

Cover artwork by Christine Boseman, a 24 year old artist residing in St. Peters Missouri.

Christine's art is a magical experience! Christine loves to do a variety of art, but her two main subjects are wildlife (such as tigers, whales and sea turtles), and Christine's more recent and in high demand subject her signature mermaids!

Christine's art has her own style with whimsical backgrounds and softer more realistic subjects, which can be seen all over from Missouri to the Florida Keys! Christine just had an interview with OCEAN magazine to be published January of 07'.

"The Florida keys, Sanibel Island and Florida in general have become a major carrier of my art they love my mermaids and my girls fit in well there".

"I like doing art that strikes a cord with someone or brings them back to the fantasy or imaginative parts of ourselves I believe we loose as we get older. I do not have children yet but I do have 3 nieces who keep me young and my imagination soaring."

Christine spends a lot of her time around wildlife, traveling doing art in her studio in St.Peters or completing murals all over Missouri and Illinois! Christine's goal is to be in a financial position to help wildlife rescues financially. You can contact her at her studio #636-485-6336 or by e-mail Artbychristine@aol.com a website will be up in late December at www.TheArtOfChristine.com
